

MUNTJIRKHAN PATHAN

PHP | Magento 2 | Laravel Developer

Ahmedabad, Gujarat, India • +91 90167 19183 • montukhanpathan007@gmail.com • LinkedIn: Muntjirkhan Pathan • GitHub: github.com/Montukhan786

PROFESSIONAL SUMMARY

Backend-focused Software Developer with 2.5+ years of experience building and maintaining scalable web and e-commerce applications using PHP, Laravel, and Magento 2. Experienced in Magento 2 B2B solutions including company management, GraphQL APIs, GT/MT customer-group allocation, multi-MRP pricing, inventory reservation, ERP integrations, and order processing workflows.

TECHNICAL SKILLS

Languages	PHP, JavaScript, jQuery, HTML5, CSS3, SQL
Frameworks / CMS	Laravel, Magento 2 (Open Source), Spring Boot (basic)
Databases	MySQL, MariaDB — query optimization, joins
E-commerce	Magento 2 customization, module development, theme overrides, checkout flow, EAV model
API & Integration	REST API design & consumption, GraphQL, AJAX, JSON, third-party API integration, Postman
Tools & DevOps	Git, GitLab, GitHub, Bitbucket, Composer, Docker (basics), Linux CLI, VS Code
Concepts	OOP, MVC, SOLID principles, Design Patterns, Code Reviews, Agile / Scrum

PROFESSIONAL EXPERIENCE

Backend Developer (PHP / Magento / Laravel)

Cinovic Technologies LLP

Jun 2023 – Present

Ahmedabad, India

- Develop and maintain scalable backend modules in Magento 2 and Laravel, contributing to e-commerce and SaaS products serving thousands of monthly users.
- Built 10+ custom Magento 2 modules and admin extensions covering catalog, checkout, customer account, and order workflows — reducing manual operations work for the client team.
- Implemented custom modules for company management, customer-group pricing (GT/MT), multi-MRP pricing, custom inventory reservation, order merging, ERP (Vinculum) integration and GraphQL APIs.
- Improving response times on key pages through query optimization and caching enhancements.
- Implemented Laravel REST APIs, Eloquent relationships, queues, and scheduled jobs to support asynchronous workflows such as bulk imports, notifications, and report generation.
- Followed Git/GitLab branching strategy (feature → develop → main) with peer code reviews and CI checks, while debugging production incidents via Magento logs, Laravel Telescope, and MySQL slow query logs — reducing post-release defects.
- Collaborated in Agile sprints with frontend developers, QA, and project managers to translate business requirements into clean, testable backend implementations.

Java Developer Intern

Adopt Nettech

Apr 2023 – Jun 2023

Ahmedabad, India

- Trained in Spring Boot, microservices, Docker, and Git, then contributed to a networking-domain product integrating with a TACACS authentication server.
- Implemented REST endpoints and bug fixes under senior developer guidance, following code review and version control discipline.

KEY PROJECTS

- Magento 2 E-commerce Customization** — Built custom modules for product attributes, checkout extensions, and admin grids; integrated a third-party shipping API and a CRM sync flow using Magento queues. Tech: PHP, Magento 2, MySQL, REST APIs, GraphQL, Dependency Injection, Checkout Customization, MSI, Multi-MRP.
- Laravel Admin & API Backend** — Designed RBAC, REST APIs, and Eloquent-based modules for an internal admin panel; implemented JWT auth, request validation, and queue-driven email notifications. Tech: PHP, Laravel, MySQL, jQuery, AJAX.
- Book My Show Backend (Self-learning)** — Spring Boot REST application with 13+ APIs for movie show booking, JPA/Hibernate persistence, and layered architecture (controller / service / repository). Tech: Java, Spring Boot, MySQL.

EDUCATION & CERTIFICATIONS

Bachelor of Computer Applications (BCA) — Tarkesh and Niranjana Commerce College, Boriavi | CGPA: 7.88 Jul 2017 – Sep 2020

Certifications: HackerRank — Java (Basic) • HackerRank — Problem Solving (Basic) • Oasis Infobyte — Java Development Virtual Internship (2023)
